

Multi Pixel Camera Receiver

16 – 17 November 2009

Max Planck Institute for Radio Astronomy

Bonn, Germany

The meeting will bring together receiver engineers who are working in the field of receiver developments of more than a handful feeds with a focus on:

- Current multi pixel receiver projects worldwide
- Special architectural properties of multi pixel receivers
- Maintainability and reliability issues
- Calibration issues of multi pixel receivers
- Noise Figure measurements of multi pixel receivers

You are welcome to present your work.

Deadlines: 15 October 2009:
25 October 2009:

Registration and hotel booking
Deadline for the abstracts
