

RADIONET3

WORKSHOP “RN3 OUTREACH: FINAL MEETING”

DATE	15 October 2015	9-18 TIME
PLACE	Meeting at Onsala Space Observatory, Onsala, Sweden	
PARTICIPANTS	Francisco Colomer, Robert Cumming, Daria Dall'Olio, Mariana David, Fabrice Herpin (T), Norbert Junkes (T), Emmanuel Laisné (T), Ivan Martí-Vidal, Maryam Saberi, Naomi Smith, Aukelien van den Poll, Stefania Varano (minutes).	
WEBPAGE	https://indico.mpifr-bonn.mpg.de/indico/conferenceDisplay.py?confId=106	
VERSION	23.11.2015	

ACTION ITEMS:

ITEM	SUBJECT	PERSON	DATE
A1.	Delivering the translation of the UNAWE booklet	S. Varano R. Cumming I. Shmeld	December 15, 2015
A2.	Creating a webpage including the comic novel and, the mapview and the booklet translations	A. van den Poll	December 15, 2015

AGENDA:

- 08.00 – 09.00** Trip from Gothenburg to Onsala (meeting point: Chalmers University Campus)
- 09.30 – 09.45** **Welcome and planning**
(John Conway, Director of the National Facility Onsala Space Observatory and Robert Cumming)
- 09.45 – 11.00** **Recap and evaluation**
Work done and criticisms - Discussion
- 11.00 – 11.30** **Coffee and Chats**
- 11.30 – 11.50** **POE at Yebes (F. Colomer)**
- 11.50 – 12.10** **POE at Onsala (R. Cumming)**
- 12.10 – 12.30** **POE at Medicina (S. Varano)**
- 12.30 – 13.30** **Lunch and chats**
- 13.30 – 14.30** **Visit to Onsala Space Observatory**
- 14.30 – 17.30** **Visit to Grimeton Radiostation**
- 17:30 – 18:30** **Return to Gothenburg**

MINUTES:

1. Report on “Recap and evaluation” session.

The discussion started up with the presentation of the achieved results: the web site, the translation of the booklet “The Invisible Universe” and the comic novel “Eagle View Network”.

First of all, it was pointed out that the best result of this Task has been the creation of a network that has been able to work together for the production of some tangible results. The work still needed for the completion of the Task has been pointed out and two last Action Items have been defined.

⇒ **See Action Item A1:** Delivering the translation of the UNAWE booklet

⇒ **See Action Item A2:** Creating a webpage including the comic novel and, the map view and the booklet translations

Some of the criticism of the work done were also pointed out, such as the difficulty of working for this task (sometimes demanding, as in the case of the novel production) beside their normal duties. This is the reason why the RadioNet4 “Outreach NA proposal” had some FTE request included.

Unfortunately such proposal has not been accepted, therefore also the discussion about the future was slightly redirected in respect to the first proposed agenda of this meeting.

What should have been a “Future” session was instead included in this recap overview. The opportunity of keeping the group working together was discussed, with the aim of perhaps work again together either for the cooperation with other NAs within RadioNet4, if requested, or the preparation of dedicated proposal within H2020 at large.

The opportunity of keeping in touch with other organization, such as IAU (about the UNAWE activities and the SKA organization) was considered worthwhile.

2. Report on the afternoon session

Some of the Public Outreach and Education activities at Yebes (F. Colomer), Onsala (R. Cumming) and Medicina (S. Varano) were presented, also with reference to the people involved in local organization of the activities and the contact with other local partners.

Naomi Smith presented the opportunity for the RadioNet3 Outreach working group to take part to the outreach activities celebrating Manchester "European City of Science" in 2016. In particular, we are all invited to participate to the Weekend Music Festival at Jodrell Bank (21-24 July) and/or provide live links to somewhere as part of this.

The group should provide feedback on this soon, directly contacting Naomi at Jodrell.
